**Corner of Hwy 67 and Maplevue Street**

Decided we needed to do something in the month of July! So, have worked out a cruise that misses the recent fires and yet is a sweet little bunch of twisties.

Why so early? Breakfast crowd hasn't arrived yet and the roads are empty of cars. When we were finishing the pre-run, the CHP were just coming out and were on every street corner and they were as thick as flies on a coon hound.

Done with the run just at 8 AM, leaving you free to enjoy the rest of your day.

Great weather and better set of fun corners to get the blood pumping!
